

**Low Income Energy Efficiency Program**  
***Consultation paper on design options***  
**Stakeholder feedback template**

**Contact Details**

Name of organisation:	Western Power
Name/position of author:	Andrew Blaver, Program Implementation Manager, Perth Solar City program
Phone Number:	08 9326 6172
Email:	andrew.blaver@westernpower.com.au
Date submitted:	21 October, 2011

**Confidentiality**

All submissions will be treated as public documents, unless the author of the submission clearly indicates the contrary by marking all or part of the submission as 'confidential'. Public submissions may be published in full on the Department of Climate Change and Energy Efficiency website, including any personal information of authors and/or other third parties contained in the submission. If any part of the submission should be treated as confidential then please provide two versions of the submission, one with the confidential information **removed** for publication.

A request made under the *Freedom of Information Act 1982* for access to a submission marked confidential will be determined in accordance with that Act.

**Do you want this submission to be treated as confidential?**     Yes     No

**Submission Instructions**

Submissions should be made by **Friday 5pm AEST 21 October 2011**. The Department reserves the right not to consider late submissions.

Where possible, submissions should be lodged electronically, preferably in Microsoft Word or other text based formats, via the email address – [lieep@climatechange.gov.au](mailto:lieep@climatechange.gov.au).

Submissions may alternatively be sent to the postal address below to arrive by the due date.

Low Income Energy Efficiency Program  
Low Carbon Communities Team  
Department of Climate Change and Energy Efficiency  
GPO Box 854

**1. Program Overview**

- Clarity of program objectives
- Management of the program
- Process for application assessment

Please clarify management of the program: it should clearly stipulate that organisations eligible to lead Consortia includes 'electricity network operators'.

**2. Assessment Criteria**

- Proposed eligibility criteria
- Proposed merit criteria

The proposed merit criterion draws heavily on the successful elements of the Solar Cities program and as such appears sound.

### 3. Additional Information

- Roles and responsibilities
- Milestones, reporting, payments and auditing
- Branding and communication
- Industry participation

The discussion paper describes data analysis that is largely to be undertaken by the Consortium/Lead agency, however makes no provision for the delivery of raw data to the Commonwealth. Will there be a requirement to deliver DCCEE prescribed datasets into a central Commonwealth database?

### 4. Other Information / Feedback

- Comments on eligible expenditure draft guidance
- Suggestions for other support material

Is it DCCEE's preference for trial locations be broad, possibly across multiple LGAs, or contained areas within a defined LGA?

Is there a standard definition/income threshold/means test for "Low Income Household" to be used in this trial?

Page 9 states "unsuccessful applicants.....resubmit eligible applications in subsequent funding rounds" – please clarify if there will be specific rounds of funding or a single funding round only.

Please clarify if there is any intended interaction between the Low Income Energy Efficiency program and the *Home Energy Saver Scheme* beyond "promotion of or referral to other existing Commonwealth, state, local programs"—and if so, what would be the nature of such interaction?
